

Made in Haven!

Time Limit per Test : 1 Second

June 5, 2023

An unforgotten legend of *Harmony Haven Emporium* is widely-known amongst Whispering Moon Clan as illogical yet must be followed. There are two rules in *Harmony Haven Emporium* legend :

- Each store owners must not sell leftover items
- Each buyer must buy in pairs and each item's price is different

Luckily, you were visiting Whispering Moon Clan and they need your help to know a number of leftover items.

Input

First line is t -number of testcases ($1 \leq t \leq 10000$).

Each testcase contains of one line of n ($1 \leq n \leq 200000$) and one line of n -amount of item's price p ($1 \leq p \leq 10^9$)

Output

Print t -lines of leftover amount

Examples

Test Case 1
